Pipe Stone City - Pipe Stone Co
Alcinn. July 16th 1883

Prof. Warren Upham assistant Geol
State Geologist & Stat. Scientist (Prof. Winchell)
desires me to send you 2 specimens of
cactus for identification. Both species
have blossoms which are very nearly
alike excepting in size. The flat land
variety having a blossom two or three
times the size of the other. The one
with tuberous bead like joints has a
blossom 2½ inches across. It is of a
light straw color tinged with red on
the outside. The stigma in centre of
flower is conspicuously green.

Mrs. Charles F. Bennett.

POSTAL CARD.
